ABOUT ME

Detail-oriented BCA student with academic knowledge in Java, Python, C++, Data Structures, Database Management Systems, and Web Technologies. Experienced in building basic web applications and interested in applying programming concepts to real-world software development. Focused on improving practical coding skills, backend development knowledge, and problem-solving ability through projects and professional exposure.

EDUCATION

2024-2027

Bachelor of Computer Application

University of Madras

Studied programming, software development, database management, and computer applications with practical knowledge in IT and problem-solving.

2022-2024

Higher Secondary

Completed higher secondary education with foundational knowledge in academics, communication, and analytical skills.

PROJECTS

2025

Cookbook – Frontend

Developed a responsive recipe website with interactive UI and easy navigation, improving user experience and accessibility.

2026

MicroGoals – Backend

Improved backend development efficiency and code quality.
Built a stable and scalable backend system with fewer bugs.

SKILLS

- programming language:python,c++,java
- MongoDB,Node.js
- Tools:MS Word,MS excel
- Tecnical skills:HTML,CSS,JavaScript

CERTIFICATES

- Full Stack-Frontend Development (Naan Mudhalvan)
- Introduction to Artificial Intelligence(IBM skillsbuild)
- MongoDB Node.js Developer path-SmartBridge
